Paperdoll Studios is comprised of three content creation studios: Lost Ark Games (developer), Shin'en Multimedia (developer), and SDB Creative (developer). Together, the teams of creators passionate about creating content have been working on the series The Warden since 2011. We are now big enough that we can also let you play our newest game. The Warden is a fantasy action RPG about a hero on the run from the murderous cult, Beneath, who seeks your help in an attempt to expel the gods of chaos from the lands between in an epic struggle to save the last gods. It tells the story of the Warden's quest and the battles he has to navigate to protect the peace and purify the Gods. A series of events lead the Warden's wife to being captured, and the Warden to searching for the person responsible. The gameplay is a blend of hack and slash action and classic roguelike gameplay.
